1 - Introduction

1.1 - Purpose of the handbook

This handbook will serve as a guide for all current and future ARN Discord Moderators. It defines all standards, responsibilities, and procedures to ensure consistent, fair, and effective moderation. Moderators are expected to use this document as a reference when making decisions.

1.2 - Moderator Objectives

The moderation team is responsible for maintaining a safe, respectful, and organized community. Core objectives include enforcing rules, preventing disruptive behavior, and responding to incidents efficiently while supporting overall server stability.

1.3 - Scope of Authority

Moderators are granted permissions to enforce rules through actions such as warnings, timeouts, and bans. These powers must be used responsibly, without bias, and strictly in accordance with the guidelines of this handbook. Situations beyond standard handling should be escalated to higher staff.

2 - Roles, Permissions, and Structure

2.1 - Staff Roles and Hierarchy

The ARN Discord operates on a structured hierarchy to ensure clear authority and accountability. Core moderation leadership consists of **Owner**, **Head Admin**, **Admin**, and **Moderator** in said order.

Authority flows from top to bottom. Higher roles handle escalations, final decisions, and policy direction, while Moderators focus on day-to-day enforcement. All staff are expected to respect this chain of command.
